## The Bionic Business

Building Better, Faster, Stronger,  
and More Profitable Businesses.

*maximize* cash flow in your  
Supply Chain. Let us show you how.

Supply Chain Management

## Supply Chain Management

**Lower Safety Stock**

**Higher Order Fill-Rates**

**Lower Transportation Costs**

**Reduced Cost of Goods Sold**

**Better Service Levels**

**Shorter Planning Cycles**

**Faster Cash Conversion Cycle**

Your Supply Chain can be a substantial competitive advantage, and by creating a network of trading partners who collectively combine their expertise, you can ensure stronger, more profitable long-term relationships with your customers.

### Find the Incremental Profits in Your Business

EntryPoint will help you determine:

- ▶ How to balance between a push-system based on forecasts and a pull-system based on building products only in response to customer requests.
- ▶ How to achieve best-in-class inventory turns.
- ▶ The optimal inventory mix to deliver the highest amount of profit for your company considering required services levels and lead times.

### Does Your Supply Chain Enable Your Business or Hold it Back?

We help you free-up cash flow and improve your Return on Assets by helping you improve your entire supply chain network by leveraging SAP® Advanced Planning & Optimization (APO) modules such as Supply Network Planning (SNP) and Demand Planning (DP).

We'll help you measurably improve your supply chain execution through tools such as Extended Warehouse Management (EWM), Transportation Planning & Vehicle Scheduling (TPVS) and SAP® TMS 6.0.

Drive incremental cash flow from your supply chain operations and make the move toward a truly collaborative and adaptive supply network.
