Reasonable Care

Management of Your Trade Compliance Program

Maximize the effectiveness of your Trade Compliance Office by letting us do it for you. EntryPoint can help you screen partners against Sanctioned Party Lists, support your export license determination efforts, process your export transactions through AES and determine the appropriate HTS, Schedule B, ECCN, USML or OGA number for your products.

24x7 Coverage of Your Compliance Program

Managing the process to get goods into and out of foreign markets has never been more complex, time consuming and frustrating. Finding and retaining qualified compliance experts is also difficult and often cost-prohibitive.

With experienced global trade professionals located across the country, our Managed Services practice specializes in the management of your global trade program. With an experienced team of Licensed Customs Brokers and certified export officers on staff with fluency in four languages, the operational details of your global compliance program are handled.

Get Strategic and Add Value to the Business

Most trade departments focus their time and attention on the mundane activities of ensuring your company meets its compliance obligations instead of becoming a strategic asset to the business. With EntryPoint's Virtual Trade Compliance Office, you'll finally have more time to concentrate on those strategic activities which drive measurable and visible value to your company.

The Deepest Team in the Business

Most of our employees have walked a mile (or two) in your shoes. Our ability to make a dramatic, positive impact to your business stems from the in-depth industry knowledge and experience of our consultants. We hand-pick people who are passionate about trade compliance and who understand the ins and outs of most international trade regulations so that you can rest more easily.

Eliminate wasted time and money in your import/export operations and maintain compliance with international trade regulations. **Contact Global Trade Management Vice President Dave Moore at dmoore@entrypointconsulting.com or 260.417.1825.**
